

# TSI CERT Training Program

## CERT Course Cost Guide

CERT Courses are offered at variable rates, depending on who is sponsoring or requesting it, and how much equipment they can supply to support the training. TSI does offer complete course packages, where all equipment and instructors are supplied so training can be conducted for groups who lack their own equipment. Free courses are also offered sponsored by TSI or C.A.A. CERT, or at a minimal charge to cover the cost of equipment. Courses requested by, or offered for, outside organizations or groups are typically charged to that group at a regular rate per class to cover expenses for equipment and instructor time. Training is free to the students, we only charge the sponsoring group for the class.

NOTE: Client is responsible for the cost of shipping any materials to training site, if shipping is required.

## Requested Class Sizes

The optimal class size is 20 students to ensure that students adequately learn the material. For larger groups, instructors can be added, or multiple classes can be done. We also require a minimum of 10 students per class because any less makes the exercises difficult and less effective.

PLEASE NOTE: A 1 hour lunch break is included on each day of training. Lunch is not provided, unless provided by a sponsoring group.

## Travel

If travel is required, it may be an additional cost to the above amounts.
